Get to know the city by taking a metro ride to the place of your first visit. The Metro is one of the fastest ways to get anywhere in this city, and to avoid traffic jams. Metro is the fastest ways to get anywhere in this city, and to avoid traffic jams.

If you want to see the Bolshoi, it's a good idea to book your tickets in advance!

# ***Excursion in Novodevichy Convent***

***Novodevichy Convent, also known as Bogoroditse-Smolensky Monastery is probably the best-known cloister of Moscow. Its name, sometimes translated as the New Maidens' Monastery, was devised to differ from the Old Maidens' Monastery within the Moscow Kremlin. Unlike other Moscow cloisters, it has remained virtually intact since the 17th century. In 2004, it was proclaimed a UNESCO World Heritage Site.***

**[www.discoveryrussia.com](http://www.discoveryrussia.com)**

## Moscow Metro tour

**The Moscow Metro was opened in 1935 with one 11-kilometre (6.8 mi) line and 13 stations, it was the first underground railway system in the Soviet Union. As of 2018, the Moscow Metro excluding the Moscow Central Circle and Moscow Monorail has 224 stations (255 with Moscow Central Circle) and its route length is 381 km (237 mi), making it the fifth longest in the world. The system is mostly underground, with the deepest section 84 metres (276 ft) underground at the Park Pobedy station, one of the world's deepest. It's the busiest metro system in Europe, and a tourist attraction in itself.**

# TRAINS AND CARS DESCRIPTION

## General information

- ✓ In fact, there is no train called the 'Trans-Siberian Express', rather there are many trains going daily eastbound and westbound across Russia, connecting to Mongolia and then to China. You will be surprised by the scale of the system connecting together the world's largest country, thus being a bridge between Asia and Europe. You can even continue to Hong Kong, Vietnam or even Japan by a ferry. The entire system works like a Swiss watch!
- ✓ Russian branded trains offer a high standard of service, design, comfort and additional services. Most trains are air-conditioned and have electric heating and TVs. Some also have Internet connections and cable television. Discovery Russia uses the best available trains for each leg of your train journey.
- ✓ Staff is always available to offer passengers hot tea or coffee, make the beds, provide all necessary information en route and hand out periodicals and safety belts to passengers.
- ✓ Each branded train also offers a range of additional paid services.

# TRAINS AND CARS DESCRIPTION

## Meals on board

- ✓ Branded trains always have a restaurant car with a menu including national dishes and set meals.
- ✓ As you're travelling by train, the menu is limited and sometimes selected positions might not be available daily. Usually, salads and soups are served, main course (steak, schnitzel or fish with rice or potatoes). Typical breakfast includes ham and fried eggs. The restaurant car also have beer, Russian champagne and vodka, chocolate and some snacks. Apart of this, we strongly recommend to try the special Russian on-board tea served in very special Soviet cups. This is a part of your Trans Siberian experience!
- ✓ Passengers with children and people with disabilities may ask the conductor for a waiter and order breakfast, lunch, dinner and other meals from the restaurant with delivery to their compartment. The restaurant car also has special tables for passengers with children and disabled people.
